BRAVIA Professional Displays

EZ20L Series Brochure

androidtv

Professional display with essential features designed for your business needs.

Picture Quality

- 350nits brightness
- Wide viewing angle
- 4K HDR visual experiences

Robust Usability

- Power scheduling
- HDMI wake-up on signal
- IP control/ RS232C
- Screen mirroring
- "BRAVIA Signage Free" quick signage app

Installation

- Various size options
- 16/7 dependable operation
- Landscape, portrait & tilt supported

Sustainability

- Made with recycled materials
- Less ink used on carton boxes
- Energy saving mode

EZ20L

Entry-level commercial displays rated for 16/7 operation with essential professional features.

75" 65" 55" 50" 43"

androidtv

Wide viewing angle

The extra wide viewing angle of our BRAVIA Pro displays ensures that everyone in the room can enjoy clear, bright images wherever they're positioned. Advertising content and promotional messages are seen clearly by customers, wherever they are standing.

IP control / RS-232C

The EZ20L Series is controllable both via an IP network and RS-232C. This controllability makes it possible to incorporate the displays into a variety of existing systems such as in offices, class rooms, hospital, and as eye-catching signage.

"BRAVIA Signage Free" quick signage app

Our no-cost BRAVIA Signage Free software is now a pre-installed app on EZ20L Series Professional Displays, allowing you to create polished multimedia content with no special skills or extra downloading needed.

Landscape, portrait, tilt supported

Install BRAVIA Pro display in portrait or landscape orientation to suit any corporate or retail space. The display can also be tilted at an angle for even greater flexibility.

Robust Usability

Simple pro settings for professional use

Simple pro settings makes doing business even easier, allowing you to customize essential BRAVIA Pro settings and operating modes to suit the demands of corporate or retail environments.

e.g.1

Enable or disable the buttons on the display or the remote control.

e.g.2

Since the input source is automatically switched as the HDMI cable is connected, operation is possible without the need for a remote control.

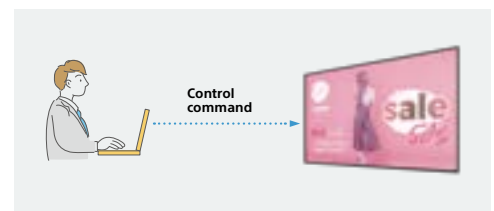

Examples of customizable items

Setting Items for Corporate	Setting Items for Signage
<ul style="list-style-type: none">• HDMI Wake-Up on Signal• Power Scheduling• PC Input Optimization and more	<ul style="list-style-type: none">• Power Scheduling• Initial Input Source• Display/Remote Controls and more

IP control / RS-232C

The EZ20L Series can remotely control and monitor BRAVIA Pro display functions – like power on/off, input source and volume – over IP networks or using familiar RS-232C protocols.

“BRAVIA Signage Free” quick signage app

Informing and guiding visitors with digital signage in retail stores and corporate spaces has never been simpler. Built-in support for HTML5 makes it easy to display interactive signage content on BRAVIA Pro Displays without the need for a dedicated set-top box, media player or PC. On-board BRAVIA Signage Free (BSF) software automatically plays out HTML content, video and photos when a USB stick memory is slipped into the BRAVIA Pro Display. It's that simple.

Screen mirroring

Easily mirror content wirelessly from a handheld device onto BRAVIA Pro with in-built support for Apple AirPlay and Google Chromecast.

Installation

Various size options

The EZ20 Series offers a range of sizes from 43" to 75" making them ideal for large projects requiring multiple sized displays that deliver the same picture quality, brightness and contrast.

Brightness : 350 cd/m² for 43"/50"/55"/65"/75"

Landscape, portrait, tilt supported

In addition to landscape, portrait, and tilt installation, BRAVIA Pro Displays can be used with mobile stands for effective use of space, and ceiling mounted for digital signage.

16/7 Operation

The EZ20L Series is reliably designed for operating 16 hours a day, seven days a week. This is suitable for corporate, education, retail and any situation in which you need to convey information in an engaging, visual way.

Picture Quality

Wide viewing angle

The extra wide viewing angle of our BRAVIA Pro displays ensures that everyone in the room can enjoy clear, bright images wherever they're positioned. Advertising content and promotional messages are seen clearly by customers, wherever they are standing.

4K HDR Visual Experiences

BRAVIA Pro display provides 4K visuals with lifelike colors and elevates every piece of content. 4K Processor X1™ enhances color, contrast and clarity for a superior picture to better catch the attention of visitors. Even contents in Full HD are upscaled close to 4K resolution by 4K X-Reality™ PRO.

Live Color / Motionflow™ XR

Live Color maximises the colors palette of the display so everything you see looks more vivid and realistic. Motionflow XR ensures smoother, more natural reproduction of rapidly-moving on-screen images.

Sustainability

Making it, moving it, and using it more efficiently: Advanced engineering for sustainability

To reduce environmental impact, we are focused on multiple aspects across the product life cycle, such as reduction of virgin plastic, improvement of transportation efficiency, and more efficient power consumption.

STEP 1 Making it

Towards closed loop with repeated recyclability

Use of recycled materials has the potential to reduce the volume of waste and contribute toward a recycle-oriented society.

STEP 2 Moving it

Cutting CO2 with smaller and lighter Packing

By re-engineering the packaging that protects the product during shipping, we cut the package size by 15% and total weight by 10%. This increases the number of units on one pallet by approximately 1.3 times. As a result, CO2 emissions per unit from product transportation have been reduced by approximately 15%.

STEP 3 Using it

Power Saving Mode

Reduce power consumption by limiting backlight power, which greatly affects power consumption.

EZ20L Series Specifications

Essential

		FW-75EZ20L	FW-65EZ20L	FW-55EZ20L	FW-50EZ20L	FW-43EZ20L
General features	Screen Size	75	65	55	50	43
	Brightness (cd/m ²)	350				
	Contrast Ratio	1200:1			5000:1	1200:1
